Before the handover ceremony the Prime Ministers of the Visegrád Group of Four (the Czech Republic, Poland, Hungary and Slovakia) held talks with the leaders of the Benelux countries in Warsaw Castle on the migration crisis, the consequences of Brexit and the EU common defence policy. Hungary will hold the Chairmanship of the rotating presidency of the Visegrád Group of Four for one year with effect from July 1, 2017.

PM Orbán confers with Chinese Vice-Premier after Health ministers forum: Chinese Vice-Premier Liu Yandong visited Budapest on 19th June to participate in the third China-Central and Eastern European Countries (CEEC) Health Ministers' Forum, which was held in Budapest on 18th-20th June. Hungary is committed to furthering cooperation with China and intends to become the driving force for health cooperation between China and the Central Eastern-European region, Deputy Prime Minister Zsolt Semjén said during the event. Human Resources Minister Zoltán Balog said "the future resides in cooperation between East and West and one can't imagine the future of the world without China". Vice-Premier Liu Yandong said it is important for Chinese medicine to act as a cultural link in the region. The conference addressed four topics: health care programmes, hospital cooperation, health policy research and traditional Chinese healing. On 21st June, a meeting was held between Prime Minister Viktor Orbán and the Chinese Vice-Premier in Parliament. Foreign Minister Péter Szijjártó and Human Resources Minister Zoltán Balog were also present. The Vice-Premier said his country is interested in sustaining

and furthering bilateral relations. It was noted that most of the Chinese investments targeted to Central-Europe are going to Hungary.

Hungary joins Asian development bank: Hungary has joined the Asian Infrastructure Investment Bank (AIIB) and paid its first capital instalments, Economy Minister Mihály Varga announced. Speaking after the Beijing-based AIIB's annual meeting in South Korea on 19th June, EM Varga said he expects membership to help expand Hungary's international financial and trade network, especially in fast-growing regions of the world, boosting Hungary's economic growth and competitiveness. Joining the Chinese development bank is part of the government's policy of cementing ties with China and gaining access to markets in the East. The AIIB was founded with capital of \$100 billion in 2015 by 57 countries as an alternative to the US-based World Bank. The bank has financed \$2 billion worth of projects, the Economy Ministry said.

Commercial

Bank sector sees profit in Q1: The banking sector in Hungary realised a joint Ft 174.8 billion (appx €567 mln) aftertax profits in the first quarter of 2017. According to current figures, aftertax profits in the banking sector dropped 8.6% from Ft 191.4 billion (appx €619.5 mln) a year earlier. The drop is mostly due to the fact that operating costs went up 42.8%. Profits earned on interest went down 7.8% to Ft 197.2 billion (appx €639.6 mln).

Black economy shrinking: The black economy has shrunk to 21% of GDP from 24% just a few years ago, State Audit Office head László Domokos said. This provides scope to lower taxes further to reward law-abiding businesses, which would lead to more whitening of the economy, he argued. Domokos praised government's measures to combat grey and black economic activities and cited figures to underpin his remarks.

BorgWarner expands in Oroszlány: US company BorgWarner is expanding its capacities in its three factories in Oroszlány, Komárom-Esztergom county, CEO of the turbo systems manufacturing factory Attila Bogár said. A total of 600 jobs will be created over the next three years. The government will provide 10% of the cost of the expansion project as a subsidy, he added. The turbo systems factory has 1,100 employees in Oroszlány, the mechanical transmission parts factory has 150 workers and exhaust pipe factory has 250 workers.

Diehl Aircabin expands in Nyírbátor: German air industry supplier Diehl Aircabin Hungary is investing Ft 3.7 billion (appx €12 mln) to expand its capacities in Nyírbátor, Hajdú-Bihar county. The family business, founded in 1902 will create 230 jobs, he said. Diehl Aircabin will manufacture parts for the Airbus A350 airplane. The company began operations in Hungary six years ago and now has over 500 employees. Diehl Aircabin Hungary realised €22.4 million in revenues in 2016.

Siemens expands in Budapest: Siemens has laid down the foundation stone for its new 10,000 m² turbine blade-producing factory in Budapest on 20th June. Siemens is investing Ft 10 billion (appx €32.4 mln) in the construction in the region of its Power and Gas unit, with production to start in 2019. Germany and Siemens are strategic partners of Hungary, Foreign Affairs and Trade Minister Péter Szijjártó said at the ceremony.
